

Dear Customer –

**New Security Measures**

Providing the security and safety you expect means responding to new threats with the best methods available. Because of that, we're making an enhancement to our security posture for account holders who leverage Intuit, Quicken, QuickBooks Online and Mint technologies.

**What to expect**

Soon you will see an additional layer of security in the form of a multi-factor authentication (MFA) step. In addition to your login and password, you'll be asked to provide a security access code (SAC) sent to you via text or email. This additional step will enable access to your account and represents a valuable new security layer.

Please contact a customer service representative if you have any questions about the boosted security feature for your account.

You can reach us at 979-865-4200 or by emailing [customerservicegroup@acsbank.com](mailto:customerservicegroup@acsbank.com)
